

25 January 1990

MEMORANDUM FOR: JFPC
THROUGH: JAD
SUBJECT: Security Processing of
Dr. Gustav Hilger

1. This is to advise that on 24 January 1990 Dr. Hilger was Security briefed by Messrs. [] and [] of Inspection and Security Staff, CIA and myself. Definite instructions concerning the restrictions on his activities in "K" Building were given to Dr. Hilger along with general CIA Security Regulations which would be applicable to him. Dr. Hilger was very responsive to the briefing and, I might add, he left an excellent impression on the Security people.

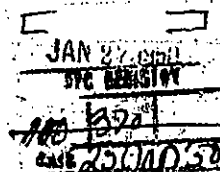

2. For your information, Dr. Hilger will be employed by us under the guise that he is conducting private research in connection with writing his memoirs in addition to being an intermittent consultant to the State Department in which capacity he has served in the past. Dr. Hilger is very pleased with this cover story and believes it to be most adaptable to his situation. It is pointed out that this cover story is based on the truth inasmuch as Dr. Hilger will be writing his memoirs and has been recently used in the capacity of a consultant to the State Department.

3. Dr. Hilger advised me personally that he is very grateful for the kind and sympathetic treatment which he received during his Security briefing. He also stated that he is gratified by our expression of confidence and trust in permitting him to work on our premises.
